For example, the occupational title associated with SOC/O*NET code 45-2092.02 is “Farmworkers and Laborers, Crop.” The suggested SOC may be used as a tool in the wage determination process. For employers filing applications by mail, the employer must begin its description of the job duties in the allotted space on the form and include one separate attachment, if necessary, to fully respond to this collection item.

ADDITIONAL GENERAL INSTRUCTIONS – ADDRESS ENTRIES FOR THE CNMI

The collection of address information on the Form ETA-9141C requires the disclosure of a physical location. Since employers operating in the CNMI have different methods of expressing the physical location(s) of their establishments where work is performed, the Form ETA-9141C should be filled out in accordance with the examples provided below. Please note that each example has some address information, other than a P.O. Box, identifying the physical location where a person would need to report for or otherwise perform work.

For the CNMI, the Address 1 field must be used to identify the street name and, if available, street number (e.g., 1338 Asension Drive) where the employer’s establishment is located. The Address 2 field may be used to provide additional details on the physical location, including an office suite or floor number. This field may be used to identify a combination of the P.O Box and island (e.g., Saipan) on which the employer’s establishment is located. The City field must be used to identify the name of the nearest city, town or village on the island in which the employer’s establishment is located, and the State field must be recorded as “MP” where located within the CNMI. Each major island in the CNMI has its own United States Postal Code as follows: 96950 (Saipan), 96951 (Rota), and 96952 (Tinian).
