Section D

Relationship to job opportunity listed on the Form ETA-9141

1. Enter the title of the job(s) included in the survey.
2. Describe the duties of the job(s) included in the survey (submit an attachment if more space is required). This should be a list of tasks performed by those in the position(s) being surveyed. Any specific requirements such as licenses should be listed here as well.
3. Enter the area of intended employment covered by the survey. A list of counties is acceptable, as are standard OMB MSAs.

Area of intended employment means the geographic area within normal commuting distance of the place (worksite address) of the job opportunity for which the certification is sought. There is no rigid measure of distance that constitutes a normal commuting distance or normal commuting area, because there may be widely varying factual circumstances among different areas (e.g., average commuting times, barriers to reaching the worksite, or quality of the regional transportation network). If the place of intended employment is within a Metropolitan Statistical Area (MSA), including a multistate MSA, any place within the MSA is deemed to be within normal commuting distance of the place of intended employment. The borders of MSAs are not controlling in the identification of the normal commuting area; a location outside of an MSA may be within normal commuting distance of a location that is inside (e.g., near the border of) the MSA. See 20 CFR § 655.5.

4. Mark “Yes” or “No” as to whether the survey was expanded to include workers beyond the area of intended employment.
 - 4a. If “Yes” in question 4, enter the geographic area surveyed.
 - 4b. If “Yes” in question 4, check all that apply if the survey was expanded beyond the area of intended employment.

If ‘The area surveyed was expanded for another reason’ is marked, it must be explained immediately below.

The explanation of ‘another reason’ must be a standard survey-related cause, such as eliminating the impact of a single dominant employer.

Section E

3. Mark “All Employers” or “Sample”, if the surveyor attempted to contact all employers employing workers in the occupations in the geographic area surveyed or a sample of employers in the geographic area.

 6. Mark “Yes” or “No” as to whether the survey included data collected across industries that employ workers in the occupation. To be permissible, the survey must be collected on a cross-industry basis. If an occupation surveyed occurs only in a single industry, mark “yes.”
 7. Mark “Yes” or “No” as to whether the survey reflects the **mean** wage for all workers it covers.
 - 7a. If “Yes” in question 7, enter the **mean** wage (specify whether hourly, weekly, or monthly).

Mark “Yes” or “No” as to whether the hourly, weekly, or monthly wage rate reported by the survey includes all types of wages paid to workers, including base rate of pay, commissions, cost-of-living allowance, deadheading pay, guaranteed pay, hazard pay, incentive pay, longevity pay, piece rate, portal-to-portal rate, production bonus, and tips.
 11. Mark “Yes” or “No” as to whether the survey included wages from workers in the occupation regardless of immigration status.
